WEB AND MOBILE NATIVE FRONTEND DEVELOPER

I am a dynamic and results-oriented mobile and web frontend developer with extensive experience in designing, developing, and delivering high-quality, scalable web and mobile applications. I am proficient in modern frameworks and tools, including React Native/JS, Next JS, Solid Starter, Tailwind CSS, PHP, HTML5, CSS, JavaScript, and REST API development. I have demonstrated expertise in leading development teams, managing project lifecycles, overseeing server configuration and deployment, and utilizing Cloudflare technologies to enhance security and performance. I am skilled in creating responsive user interfaces, developing internal tools, and maintaining robust backend integrations. I work effectively both independently and collaboratively in hybrid, remote, and on-site settings. I am committed to continuous learning, embracing new technologies, and delivering clean, user-centric solutions that adapt to evolving business requirements.

CORE SKILLS

- **Tech stack:** Website and Web Apps (React JS, Tanstack query/router, Next JS, Solid Starter, React Router 7, Vue JS, Svelte); Native Android/iOS (React Native, Expo)
